PRESS RELEASE FOR IMMEDIATE RELEASE

CONSUMER SAFETY IS ALWAYS TOP PRIORITY. MAA Issued Consumer Advisory on Faulty TAKATA Airbag Inflator Recall Issue

The Malaysian Automotive Association (MAA), as an industry body representing new motor vehicles distributors and manufacturers in Malaysia, strongly encourage local car owners to support the efforts and initiatives done by its members to replace their faulty Airbag Inflator manufactured by Takata, Japan. The move will not only improve the level of safety of their vehicle but also may reduce road fatalities.

MAA members have initiated many efforts to track vehicles owners and invite them to replace the faulty airbag inflators including setting up VIN number checker, airbag replacement campaigns, additional working hours and many others.

Datuk Aishah Ahmad, President of MAA said, *"On the faulty Takata Airbag Inflator issue, vehicle distributors have undertaken additional efforts to reach out to vehicles that are involved as the safety of the car owners are highly important. The faulty airbags inflators are being highly potential safety threat as it can cause injury to users and in worst case, death."*

A full listing of the current recalls undertaken by MAA member companies is available below. Owners of the affected models **who have yet to get their airbag inflators replaced are strongly urged to contact the distributor of the vehicle immediately** to receive the free remedy repair for their cars.
