**3. Market Performance in March 2026**

Total Industry Volume (TIV) in March 2026 recorded a 21% increase compared to February 2026, reflecting a healthy month-on-month recovery. Although the March 2026 volume was relatively low, it remains broadly within the recent five-year average of approximately 72,000 units. The moderation in TIV was mainly due to:

- Hari Raya festive holidays (including the additional public holiday declared on March 20, 2026).
- Temporary plant shutdowns during the festive period.

**4. Outlook for April 2026**

Sales is expected to consolidate in April 2026.
